

JenAI Assist™

AI-Powered. Human-Backed.™

Introducing JenAI Assist — the smart, secure, and compliant digital engagement platform that strengthens the bond between you and your customers. It fuses cutting-edge technology with a personal touch, optimizing resources and enriching interactions within your organization.

Fixing a Fragmented User Journey

Finally! Delight your customers by offering them a complete digital engagement experience that's simple, powerful and secure. It simplifies the complexity of using multiple service providers, reducing the risk, cost, and confusion associated with disjointed digital tools.

The Solution

JenAI Assist is revolutionizing digital exchange with a Generative AI solution that unifies messaging, document sharing, smart forms, and an AI chat assistant into one comprehensive platform. It's the all-in-one solution delivering a consistent and streamlined user experience.

AI-Enhanced Chat

Offers self-service via a natural, conversational interface, using approved data for precise, secure interactions.

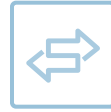

Expert Escalation

Seamlessly connects users to live experts when the AI chat assistant requires human intervention, ensuring continuous, informed assistance.

Smart Forms Workflow Integration

Simplifies user interactions with forms embedded directly into the chat, streamlining data collection and management.

Secure Digital Exchange

Consolidates secure messaging and document exchange, presenting all interactions in a single, robust interface.

Comprehensive Interaction History

Maintains a unified feed of all user interactions for easy access and reference.

Identity Management

Provides secure, compliant access management with widespread compatibility for identity protocols.

Deployment Flexibility

Adapts to your needs with a variety of deployment options, including no-code, low-code, and to pro-code (APIs)

Seamless Systems Integration

Connects effortlessly with clinical and enterprise systems for a unified operation.

Security at the Forefront:

At DataMotion, security is foundational. Our zero-trust platform exceeds the most demanding security and compliance mandates, making us the trusted partner in regulated industries.

Overview of Outcomes

Simplified Operations

Streamline workflows with integrated AI solutions that reduce complexity.

Enhanced User Experience

Improve satisfaction with cohesive, intuitive interfaces for all user interactions.

Strategic Partnership

Rely on DataMotion's secure, compliant solutions to support you as a partner to your clients..

ABOUT DATAMOTION

DataMotion is a trusted partner for streamlined and secure digital exchanges within regulated industries, focusing on the financial sector. Our Secure Customer Engagement Platform, augmented by Generative AI, revolutionizes employee and client experiences, facilitating organizations' seamless digital transformation journey.

Our solutions are architected with a zero-trust design to enhance interactions in regulated sectors, built upon our foundational pillars: the Secure Engagement Platform, Generative AI, and human expertise. Seamlessly integrating with a wide range of applications and systems used by our clients, DataMotion enables secure exchange of messages, chats, files, and forms with customers through employees' preferred platforms. These integrations eliminate the need for fragmented solutions, ensuring smooth and secure communications for enhanced customer engagement.
